Voyager Ziواني, Tsavo West

Location

Located on a 30,000-acre private farm on the western edge of Tsavo West National Park, Voyager Ziواني sits on the edge of a small, secluded dam on the Sante River. The camp's environs are home to hundreds of basking hippos, while a short drive will deposit you among the big game of one of Kenya's wildest and least explored national parks. The journey to Voyager Ziواني involves a scenic two-hour drive from Mtito Andei or Voi, or a direct flight of 20 minutes from Mombasa or 30 minutes from Nairobi.

Accommodation

Of the camp's 25 tents, 16 sit on the southern bank of the Sante River and nine on the northern. The spacious tents offer the classic ambience of a traditional African camping safari, with large secluded verandahs overlooking the wildlife-rich shores. Each tent is comfortably furnished with double or twin beds and has a modern en suite bathroom with a flush toilet and piping hot shower.

Public areas

The main building overlooking the Ziwa Dam houses our bar and dining room, with a long verandah where breakfast is usually served. In the evening candlelit tables are arranged on the lawn so that guests can dine out under the night sky beside a roaring campfire.
